OTHER COUNTIES

Are Watching Mason In Her Effort to Raise Money to Secure a Sanitary Survey—Subscriptions Have Thus Far Been Liberal.

The work on the Mason County Health Survey fund is still going forward steadily as the last remaining days of the extended time limit draws to a close.

Unless the people of Maysville and Mason county who have not contributed to this fund give and give now, we will lose the greatest opportunity that has ever presented itself to this county.

Recently it has been learned that several other counties in the state

have been watching the campaign conducted here, in order that they may take advantage of the offer if Mason County does not rise to the occasion, and the question now confronting this city and county is: Are we going to let someone else take the opportunity that has been given to us?

Even now with spring we are beginning to notice the unsanitary and unhealthy conditions that will soon become not only disagreeable but absolutely dangerous. The subscriptions to the fund have been liberal but the total sum is not yet sufficient. Mail your check to either this paper or the Treasurer of the Health League.

CIRCUIT COURT

Convenes Yesterday for the March Term—Grand Jury Holds Session But Returns no Indictments.

The March term of the Mason Circuit Court convened yesterday for a period of six weeks. This term of the court is known as the spring term of court and is generally the most important of the year, but there are few big cases to come up for trial during the term.

Routine business of the first day was transacted yesterday. The usual number of answers to petitions were produced in court and filed.

The following were the grand jurors named: P. P. Parker, foreman; D. L. Weaver, J. L. Grant, L. T. Fox, J. T. Howard, Joe Rubenacker, H. M. Pyles, William H. Dersch, Pat Collins, Thomas Comer, R. G. Wood and Garr Strode. They received instructions from Judge Newell to look into violations of the local option laws, gambling and other matters.

In the case of William Fogarty vs. the Bates-Rogers Construction Co., the plaintiff filed a motion in court for the removal of the case to the United States District Court for the Eastern District of Kentucky.

THE DAILY PUBLIC LEDGER

EDITOR AND MANAGER CLARENCE MATHEWS
CIRCULATION AND ADVERTISING MANAGER FRANK NASHLocal and Long Distance Telephone No. 40. Office—Public Ledger Building.
Entered at the Maysville, Kentucky, Postoffice as Second-class Mail Matter.**CONDITIONAL LOYALTY**

Upon the condition that organized labor shall have "representation on all agencies determining and administering policies for national defense," a conference of labor leaders has adopted a resolution pledging its members, in peace or war, "to stand undevotedly by the standards of liberty and the safety and preservation of the institutions and ideals of our republic." Other conditions are stated, also, but this is sufficient as the basis for an analysis of a conditional pledge of loyalty.

The mere statement of this condition is an assumption that organized labor does not already have all the representation to which it is entitled under the institutions and ideals of the republic. Such an assumption is manifestly false. The Wilson administration was returned to power largely through the special efforts of organized labor. Organized labor has been freely consulted by the President. In fact, there was complaint prior to election that the head of the American Federation of Labor, more than any other one man, had the ear of President Wilson. Secretary of War Baker and Secretary of the Navy Daniels have long posed as the special advocates of the interests of the laboring man.

But it must not be overlooked that when organized labor asks for representation on any governmental agency separate and distinct from the representation which all other American citizens have, it is asking something in conflict with the "institutions and ideals" upon which the Republic was founded. Nowhere in the constitution nor in the debates attending the framing and adoption of that document can there be found any intimation that any particular class of citizens should be entitled to special representation in any branch of our government. This is a government by all the people, of all the people and for all the people.

Because organized labor claims 3,000,000 members is no reason why it should have special representation. There are more than 11,000,000 people gainfully engaged in agriculture, horticulture and forestry in this country, and they are asking no special representation on agencies for national defense. There are millions of workers in other lines than agriculture but outside the ranks of organized labor, and these are asking no special representation.

Undoubtedly there were times, under the boss-ridden convention system of making nominations, when the working people of the United States could claim, with some show of reason, that they had not a due proportion of representation in the government. But the direct primary and the corrupt practices acts have changed all that. An overwhelming majority in both houses of Congress have been chosen in elections in which the vote of the poorest laborer in a factory counted for as much as the vote of the chief owner of the establishment. The laborer on farm or in factory had an equal voice with all other citizens in choosing public servants, and those are the representatives of all.

Class loyalty conditioned upon class representation is no loyalty at all—no loyalty of a dependable character. It is not the sort of loyalty the American citizen, either organized or unorganized, really feels. Temporarily overwhelmed by the consciousness of power, the labor leaders have expressed their own views and assumed them to be the opinions of the labor people of the nation.

The true American places no condition or limitation upon his loyalty—he never has and he never will.

THE SANITARY SURVEY

There are two movements on foot now in Mason county, which is supported by the citizens, will tend to promote sanitary conditions among our people and will benefit each and every individual more than any crusade of that nature has done in the past.

One movement is put forward by the Government Health Department to investigate preventable diseases in Mason county, which ranks high in the mortality rate.

This campaign has no connection with the other survey, and it is absolutely free to Mason county.

The purpose of it is to gather statistics and place these on file in Washington.

The other movement is to raise a fund to have a permanent health officer in the county who will not only investigate unsanitary conditions but will do all in his power to remedy these.

Already the water supply of Maysville has been found to be dangerous and every means to remedy this is being used.

This is only one of the reforms that will be accomplished and every individual should consider it his own personal duty to help in this and to offer every means in his power to aid this movement.

The National Chamber of Commerce, representing the great business interests of the country, recently passed a resolution providing that the basis of supply government requirements in war and peace from private sources should be at a rate of profit so low as to preclude a profit interest in war. These are the type of our citizenry against which the Democratic party has for four years waged incessant warfare through the medium of free trade and unjust taxation. But the cotton-tailed ballot-eater who voted for the Democrats in the November elections expressed his satisfaction with the way in which he business men of America had been, and will be, treated.

LEADERS GATHER IN WASHINGTON FOR CONFERENCE

Washington, March 25.—With the convening of Congress in extra session, only a week off, Congressional leaders are here for conferences with administration officials over the legislation which will be demanded by the virtual state of war existing between the United States and Germany.

Members of the Foreign Relations and Military Committees and of the House Ways and Means Committees, which frames revenue legislation, all will have important matters to discuss among themselves and with the executive branch.

Aside from the greatest business for which Congress has been called, the question of organization is chiefly occupying the House leaders. Both Democrats and Republicans said tonight that the election of a speaker probably would follow soon after the House was called to order, but that the organization of committees presented a problem the result of which none could forecast.

The attitude of the so-called "wet" members and some of the northern Democrats is giving concern to the Democrats while the Republicans are troubled over their Progressive wing. Any of these elements might easily wreck the organization plans of the majority on either side, and some observers are predicting that abolition of the seniority rule in filling committee chairmanships will be the first manifestation of their strength.

Feeling among Democrats over committee assignments was bitter at the close of the last Congress. The "wets" of whom there are about a score, angered over the manner in which prohibition legislation was pushed through in the dying days of the session, declared that they would see several Democratic chairmen displaced at this session if they had to vote with the Republicans. In turn Democratic "drys" declare openly that an insurgent movement by the "wets" would result in their summary relegation to the foot of the committees.

Discontent among northern Democrats over southern members holding virtually all of the choice committee chairmanships, broke out in heated declarations that the coming session would have to see some decided changes in committee heads if northern support was desired further.

In the last Congress only one bill, committee appropriations, was headed by a Democrat from the North Representative Fitzgerald, of New York. His acknowledged ability for this place assures him of re-election in this chairmanship, if the Democrats organize the House.

Other committees headed by Southerners at the last session of Congress included Johnson, of Kentucky.

NEW DANGER IS FACING RUSSIA

Petrograd, Saturday, March 24, via London, March 25.—(Delayed)—From internal troubles and the problems of reconstruction, the attention of Russia has suddenly been diverted to a new danger which threatens from without. There now is indisputable evidence that the Germans are massing great numbers of troops along the Northern front ready for an effort against Russia's capital.

The country has been apprised of the new menace by a series of proclamations from its Ministers.

Synopsis Betty to the Rescue

Tuesday, March 27th

WASHINGTON OPERA HOUSE.

A Great Picture.

Angela refused. Betty dreams she sees gold pouring from her mine and runs away. Going to the mine she finds Big Jim, and together they search for gold. The boys "sift" the mine and Betty is delighted at her supposed find of gold. She learns of the joke and decides to try her luck at gambling. She strikes her nuggets in a roulette game and loses. Fleming finds her here and takes her in his arms, announcing she is to become his wife just as Kenwood enters. As Jim and the proprietor of the gambling house are looking over the nuggets Jim notices a strange one—asks Betty where she found it. She leads him to the mine and he discovers a rich vein—worth a million. Fleming's conspiracy is discovered and he is invited to leave. John takes Betty in his arms and tells her he has always loved her, and is informed of the discovery of the gold. Her sudden wealth seems in his mind, to create a great gulf between them, but she wriggles back into his embrace—tells him she loves him, asks him to be her husband, and with a regular smile says if he does not marry her she will go to the dogs. In a moment she seems to change from a child to a woman—he takes her closer in his arms and their happiness is made complete.

URIC ACID IN YOUR FOOD

Maysville People Must Learn the Danger of a Heavy Meat Diet.

Even dogs can eat too much meat. Certainly, many people "dig their graves with their teeth." Few get enough exercise to justify meat more than once a day. Meat brings uric acid. The kidneys try hard to get rid of that poison. But often a backache or some other unusual ailment will show that the kidneys need help.

The time-tried remedy, then, is Doan's Kidney Pills. The remedy backed by Maysville testimony.

Read this case. Mrs. W. A. Schatzmann, 605 E. Second street, Maysville, says: "From the benefit I have received from Doan's Kidney Pills, which I buy at Chancellor's Drug Store, I have every reason to recommend them. Whenever my kidneys have been irregular in action or I have suffered from weakness and lameness in the small of my back, I have used Doan's Kidney Pills. They have always proven sufficient to quickly cure and attack."

Mrs. Schatzmann is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for DOAN'S KIDNEY PILLS, the same that Mrs. Schatzmann uses—the remedy backed by home testimony. 50c all stores. HOPE OF HIGHER HUMANITY AROUSED BY PLAN OF U. S.

Paris, March 25—The Temps, in its leader, commenting on the suggestion that Americans lend or give \$1,000,000,000 to France, says:

"In the difficult times in which we live it is consoling to encounter straightforward, disinterested sentiment that reawakens hope of a higher humanity."

Referring to the friendship between France and America. The Temps notes that "at the beginning of the twentieth century what the Americans admired in France was no longer our force, nor our ideals; it was not our virtues, but the pleasures we offered."

"We exercised a lively attraction on them," continued the paper, "but we lacked prestige and authority. The Marine, the Yser and Verdun have revived American judgment of France. For years we talked to them of nothing but literature and fashions. The illumination of battle has shown them we had other strings to our bow and from that moment the friendship that lacked, not fidelity, but substance was reawakened."

MILITARY TRAINING TAKES PRECEDENCE AT PRINCETON

Princeton, N. J., March 25—Dr. John Grier Hibben, president of Princeton University, announced at a student mass meeting tonight that if this country became involved in war, military training at Princeton would take precedence over all academic work.

Beginning this week, it was announced military work will be given more prominence and the academic work lightened considerably.

The meeting was called for the purpose of impressing upon the student body that provision has been made by the Princeton authorities for training students in different branches of service and to urge them to remain here and join the student unit. Nearly 100, it was said, had already left to join the navy and other branches of the service.
